Professional Profile

Dr. Carlos Trippia is renowned for his expertise in women's imaging, particularly in the diagnosis of endometriosis through advanced MRI and ultrasound techniques. His significant contributions to the field, including thousands of imaging studies, have established him as a leading radiologist worldwide, particularly in providing accurate imaging diagnoses for endometriosis crucial for surgical planning.

Clinical Focus

MRI and Ultrasound: Specializes in the diagnosis of various forms of endometriosis, including bowel endometriosis, diaphragmatic endo, endometrioma, adenomyosis, and bladder endometriosis, using advanced imaging techniques.

Endometriosis Mapping: Provides detailed maps of endometriosis spread, aiding in the planning of effective treatment strategies.
